

Rev. 01/27/06

Nine LCD display options are available on the BAPI-Stat 2 room unit if you select the "Override as a Latching Switch" (-L) option from the ordering grid. The chart at right shows the nine options and what the LCD will display when the latching relay is open and what the LCD will display when the latching relay is closed.

Note: If one of the "Fanspeed/ Mode Options" is selected from the ordering grid, then you must use the latching display option 9.

Option	Relay Open	Relay Closed
